EDUARDO BUSTAMANTE

DETECTION ENGINEERING · BLUE TEAM OPERATIONS · INFRASTRUCTURE HARDENING

ebustamante.dev | github.com/Eduardo-Sec | linkedin.com/in/eduardo-bustamante-sec | Contact details on request

Cybersecurity undergraduate with NSA CAE concentrations in Cyber Operations and Cyber Defense. Cybersecurity Engineer Intern at NebraskaCYBER MATRIX after deploying SIEM under CMMC at Sera Digital and leading MATRIX's inaugural SOC cohort.

EDUCATION

University of Nebraska at Omaha | B.S. Cybersecurity, Minor in Computer Science — Expected May 2028

- **GPA 3.72** | Dean's List, all semesters enrolled (Spring 2025 – Spring 2026)
- **Concentrations:** NSA CAE Cyber Operations (CAE-CO) and Cyber Defense (CAE-CD)
- **Competition:** National Cyber League Spring 2026 Team Game, 31st of 3,634 teams (top 1%)
- **Involvement:** Member, NULLify Cybersecurity Club

University of Nebraska–Lincoln | B.S. Computer Science coursework — Aug 2024 – Dec 2024

- **GPA 3.81** | Dean's List, Fall 2024
- **Involvement:** Member, OS2G (Open Source and Operating Systems Group)

SECURITY EXPERIENCE

Cybersecurity Engineer Intern — Sep 2026 – Present

NebraskaCYBER MATRIX Program | UNO College of IS&T | Returned in an engineering role after leading the inaugural SOC cohort

Cybersecurity Engineer Intern — May 2026 – Aug 2026

Sera Digital Corp

- **Configured, deployed, and migrated core operational systems**, focused on the company's SIEM and antivirus.
- **Imaged and provisioned endpoints** and kept SIEM configurations aligned to CMMC (NIST SP 800-171).
- **Authored security procedures and operational runbooks** so configuration and response steps stay repeatable across the team.

SOC Analyst Intern, Team Lead — Oct 2025 – May 2026

NebraskaCYBER MATRIX Program | UNO College of IS&T | Splunk platform training

- **Selected as the first team lead** of the program's inaugural cohort, directing 8 analyst interns in an operational, on-site SOC.
- **Co-led tool selection with another intern**, proposing the team's security stack and revising it in review with our manager.
- **Researched adversary activity**, turning threat intelligence into monitoring priorities for the team.
- **Triaged security events** and documented findings and incident timelines for handoff.
- **Created Wazuh learning modules** focused on active response use cases.

TECHNICAL PROJECTS

Segmented Detection Engineering Homelab — 2025 – Present

Proxmox | pfSense | Wazuh SIEM | Linux

- **Built a multi-VLAN network** (LAN, IoT, guest) with DNS-over-TLS via Unbound and pfBlockerNG filtering ~1.3M domains.
- **Wrote a custom decoder** for pfSense filterlog, then hardened the host (key-only SSH, scoped firewall, non-root Filebeat, auditd).
- **Authored GeoIP-enriched detection rules** for WAN blocks and Telnet, MySQL, and PostgreSQL probes, firing on real scans.

ebustamante.dev | Self-Hosted Portfolio and Security Writeups — 2025 – Present

Django | HTMX | Nginx | Cloudflare Tunnel | GPG-signed commits

- **Self-hosted with no inbound ports exposed**; CI enforces security headers, security.txt renewal, and link checks.
- **Investigated a live incident**, a foreign host scanning for WordPress and .env files; traced the ASN and user agent and scoped rate limits.

TECHNICAL SKILLS

Detection & SIEM: Wazuh, Splunk, custom rule and decoder authoring, log analysis, alert triage, incident documentation
Network & Infrastructure: Proxmox, pfSense, VLAN segmentation, Nginx, Cloudflare Tunnel, system hardening
Frameworks: NIST SP 800-53, NIST SP 800-171 / CMMC, HIPAA, PCI DSS
Low-Level & Reverse Engineering: C, ARM assembly, Ghidra, QEMU · *Currently learning: Rust*
Scripting & Tooling: Python, Bash, PowerShell, SQL, HTML/CSS, Wireshark, Nmap, Git, GitHub Actions
Operating Systems: Kali, Ubuntu, Rocky Linux, Windows

ADDITIONAL WORK EXPERIENCE

Held during high school, a gap year, and summer break

Landscaper, Vlcek Gardens — Mar – Aug 2024, May – Aug 2025
Railroad Laborer, R&S Track Maintenance — Aug 2023 – Jan 2024
Sales Associate, Walmart — Feb 2022 – May 2023
Heavy equipment: wheel loaders, backhoes, and railroad spike drivers (R&S); skid steers and mud buggies (Vlcek).
